FUNDING OPPORTUNITY:
Subsurface Stress and Lost Circulation in Geothermal Drilling

FON:
DE-FOA-0002083
AGENCY:
Department of Energy (Energy), Golden Field Office

ITEM:
Notice seeking applications for projects that advance geothermal development by addressing two significant barriers: understanding subsurface state of stress and managing lost circulation events in drilling. Improved understanding of the stress state in geothermal fields will lead to significant cost reductions at several stages of the development cycle, including improved drilling success rates and sustainability of reservoirs over time. Improved knowledge of subsurface stress has the potential to improve both well targeting and reservoir sustainability – two primary drivers of cost.

ACTION:
