FUNDING OPPORTUNITY:
Global Feed the Future Agricultural Biotechnology Program

FON:
7200AA20RFA00002

AGENCY:
United States Agency for International Development (USAID)

ITEM:
Notice seeking applications to develop and implement a global program of agricultural biotechnology activities consistent with the purpose and objectives described in the overarching Agricultural Biotechnology APS, as well as the geographic and technical scope indicated in this Addendum. To accomplish this, the Addendum establishes a co-creation process whereby USAID seeks extensive communication with prospective partners in order to jointly explore and define key challenges and problems, identify new and existing solutions, build consensus around areas for action, and/or refine plans to move forward with programs, projects, and activities pertaining to agricultural biotechnology.

ACTION:
Applications are due January 17, 2020. Approximately $100 million is available for 11 awards.

NIAID Resource-Related Research Projects (R24 Clinical Trial Not Allowed)
FON: PAR-20-063

AGENCY: National Institutes of Health (NIH), Department of Health and Human Services (HHS), National Institute of Allergy and Infectious Diseases (NIAID)

ITEM: Notice seeking applications to provide a significant benefit to currently funded high priority projects in need of further coordination and support in the areas specified. Under rare circumstances, this mechanism may be used to support development of a new resource to the broader scientific community of the NIAID. It is anticipated that the request for resource support through the R24 activity code will occur on an infrequent basis and only in circumstances where other mechanisms of support from the NIAID are not appropriate.

ACTION: Optional letters of intent are due 30 days prior to the application due date. Applications are due January 25, May 25, and September 25 annually through January 8, 2023. Award amounts vary.

FUNDING OPPORTUNITY: NIMH Career Enhancement Award to Advance Autism Services Research for Adults and Transition-Age Youth (K18 Independent Clinical Trial Not Allowed)

FON: RFA-MH-20-420

AGENCY: National Institutes of Health (NIH), Department of Health and Human Services (HHS), National Institute of Mental Health (NIMH)

ITEM: Notice seeking applications from experienced investigators seeking to redirect or expand their research programs through the acquisition of new skills and knowledge in the area of autism services research for adults and transition-age youth, which is beyond and complementary to their current areas of expertise.

ACTION: Optional letters of intent are due 30 days prior to application due dates. Applications are due February 13, 2020 and October 15, 2020. Approximately $2 million is available for up to seven awards to support projects lasting up to two years.

FON:
RFA-MH-20-555

AGENCY:
National Institutes of Health (NIH), Department of Health and Human Services (HHS), National Institute of Mental Health (NIMH)

ITEM:
Notice seeking applications to purchase or upgrade a single commercially available instrument or a group of components to create an instrument that is not commercially available.

ACTION:
Requested letters of intent are due January 10, 2020; September 9, 2020; and September 8, 2021. Applications are due February 10, 2020; October 9, 2020; and October 8, 2021. Approximately $5 million is available to support 11 awards.

FON:
RFA-HD-21-015

AGENCY:
National Institutes of Health (NIH), Department of Health and Human Services (HHS), National Institute of Child Health and Human Development (NICHD)

ITEM:
Notice seeking applications for multidisciplinary national conferences that will inform care and facilitate research for major issues in pediatric critical care medicine. Given the nascent stage of development, the small diverse patient populations, and the rapid expansion of the field, conducting research and establishing best practices in pediatric critical care is challenging.

ACTION:
Optional letters of intent are due 30 days prior to the application due date. Applications are due March 31, 2020. Approximately $150,000 is available to support two awards.

FUNDING OPPORTUNITY:
Personalized Protective Biosystem (PPB)

FON:
HR001120S0015

AGENCY:
Defense Advanced Research Projects Agency (DARPA), Department of Defense (Defense)

ITEM:
Notice seeking proposals to develop an integrated system that simultaneously reduces protective equipment needs while increasing protection for the individual against existing and future chemical and biological (CB) threats. PPB will consist of lightweight materials that protect the warfighter from exposure to any CB threat while simultaneously providing a second layer of protection, at the tissue barrier, with bio-molecular, commensal organisms, or other technologies that protect the skin, eyes, and airway from CB threats.

ACTION:
Optional proposal abstracts are due January 7, 2020. Full proposals are due February 20, 2020. Multiple awards are anticipated.

AGENCY:
National Institutes of Health (NIH), Department of Health and Human Services (HHS), National Institute of Mental Health (NIMH)

ITEM:
Notice seeking applications to encourage practice-based research aimed at refining and pilot testing developmentally-focused, theory-based efficacious prevention interventions that may impact mental health outcomes, including suicide behaviors and serious mental illness.

ACTION:
Optional letters of intent are due January 10, 2020 and September 15, 2020. Applications are due February 10, 2020 and October 15, 2020. Approximately $2 million is available to support four to nine awards in FY 2020 and FY 2021.

FON:
RFA-MH-20-345
AGENCY:
National Institutes of Health (NIH), Department of Health and Human Services (HHS), National Institute of Mental Health (NIMH)
ITEM:
Notice seeking applications to test the feasibility and safety of treatment protocols for rapid-acting interventions that have the potential to reduce severe suicide risk. Approaches considered should be feasibly integrated into existing appropriate healthcare settings, such as emergency departments (ED), psychiatric inpatient units, and/or settings that may need to meet Risk Evaluation and Mitigation Strategy (REMS) approaches.
ACTION:
Optional letters of intent are due January 26, 2020. Applications are due February 26, 2020. Approximately $5 million is available to support up to six awards.

Utilizing Invasive Recording and Stimulating Opportunities in Humans to Advance Neural Circuitry Understanding of Mental Health Disorders (Clinical TrialOptional)

FON:
RFA-MH-20-351 (R21), RFA-MH-20-350 (R01)

AGENCY:
National Institutes of Health (NIH), Department of Health and Human Services (HHS), National Institute of Mental Health (NIMH)

ITEM:
Notice encouraging applications to pursue invasive neural recording studies focused on mental health-relevant questions. Invasive neural recordings provide an unparalleled window into the human brain to explore the neural circuitry and neural dynamics underlying complex moods, emotions, cognitive functions, and behaviors with high spatial and temporal resolution. This funding opportunity aims to target a gap in the scientific knowledge of neural circuit function related to mental health disorders. Researchers should target specific questions suited to invasive recording modalities that have high translational potential.

AGENCY:
Directorate for Computer & Information Science & Engineering (CISE), Directorate for Geosciences (GEO), National Science Foundation (NSF)

ITEM:
Notice seeking proposals to transform research in the academic geosciences community. EarthCube aims to create a well-connected and facile environment to share data and knowledge in an open, transparent, and inclusive manner, thus accelerating our ability to understand and predict the Earth system. Achieving EarthCube will require a long-term dialog between NSF and the interested scientific communities to develop cyberinfrastructure that is thoughtfully and systematically built to meet the current and future requirements of geoscientists. New avenues will be supported to gather community requirements and priorities for the elements of EarthCube, and to capture the best technologies to meet these current and future needs.

National Science Foundation

FON:
20-519

AGENCY:
Directorate for Computer & Information Science & Engineering (CISE), Directorate for Geosciences (GEO), Directorate for Mathematical & Physical Sciences (MPS), National Science Foundation (NSF)

ITEM:
Notice seeking applications to transform development of predictive modeling of the coupled evolution of the magnetized solar atmosphere and the solar wind, and their interaction with the Earth’s magnetosphere and upper atmosphere. This requires advancing our understanding of the necessary and sufficient requirements of model complexity, computational performance, and observational inputs. The pilot program is also expected to directly contribute to the long-term goal of creating space weather models with quantifiable predictive capability.

Organic Agriculture Research and Extension Initiative

FON:
USDA-NIFA-ICGP-007012

AGENCY:
National Institute of Food and Agriculture (NIFA), United States Department of Agriculture (USDA)

ITEM:
Notice seeking applications to fund projects that solve critical organic agriculture issues, priorities, or problems through the integration of research, education, and extension activities. The purpose of this program is to enhance the ability of producers and processors who have already adopted organic standards to grow and market high quality organic agricultural products. Priority concerns include biological, physical, and social sciences, including economics. Four proposal types are eligible for funding: Integrated Project Proposals (Regional, Multi-regional, or Targeted); Conference Proposals; Planning Proposals; and Curriculum Development Proposals.

ACTION:
Applications are due January 30, 2020. Approximately $20 million is available for awards ranging from $50,000 to $2 million. Award amounts vary by proposal type. If a grant provides a particular benefit to a specific agricultural commodity, the grant recipient is required to match the USDA funds awarded on a dollar-for-dollar basis from non-federal sources with cash and/or in-kind contributions.
