FUNDING OPPORTUNITY:
Biobehavioral Basis of Chronic Pain (R01 Clinical Trial Optional)

FON:
PA-18-944

AGENCY:
National Institutes of Health (NIH), Department of Health and Human Services (HHS)

ITEM:
Notice seeking applications that encompasses the individual phenotype, genotype, and other omic-type assessments and the associated sensory and emotional components that underpin the individual's chronic pain experience. Research relating biology and behavior is needed to better define the individual-specific burden of chronic pain and to better understand the mechanisms underlying differences in pain experiences among individuals afflicted with the same chronic illness.

ACTION:
Applications are due annually on February 5, June 5, and October 5. Program expires January 8, 2022.

FUNDING OPPORTUNITY:
Biobehavioral Basis of Chronic Pain (R21 Clinical Trial Optional)

FON:
PA-18-943

AGENCY:
National Institutes of Health (NIH), Department of Health and Human Services (HHS)

ITEM:
Notice seeking applications from the scientific community on the biobehavioral basis of chronic pain. The focus encompasses the individual phenotype, genotype, and other omic-type assessments and the
associated sensory and emotional components that underpin the individual’s chronic pain experience.

**ACTION:**
Applications are due annually on February 16, June 16, and October 16. Program expires January 8, 2022.

**FON:**
RFA-MH-19-210

**AGENCY:**
National Institutes of Health (NIH), Department of Health and Human Services (HHS), National Institute of Mental Health (NIMH)

**ITEM:**
Notice seeking applications to support research that will address these gaps, provide understanding of the mechanisms of how dysregulation interacts with Cognition, Negative and Positive Valence to determine time-varying risk, and identify modifiable targets for timely interventions during high risk periods.

**ACTION:**
Requested letter of intent are due November 5, 2018. Applications are due December 5, 2018. Approximately $2.6 million is available to support 4 to 10 awards.

**FON:**
RFA-MH-19-211

**AGENCY:**
National Institutes of Health (NIH), Department of Health and Human Services (HHS), National Institute of Mental Health (NIMH)

**ITEM:**
Notice seeking applications to fund research that will address these gaps by providing an understanding of the mechanisms of how dysregulation interacts with Cognition and Negative and
Positive Valence in order to determine time-varying risk, and then to identify modifiable targets for timely interventions during high risk periods.

ACTION:
Requested letters of intent are due November 5, 2018. Applications are due December 5, 2018. Approximately $2.6 million is available to support 4-10 awards.

FON:
RFA-AI-18-047

AGENCY:
National Institutes of Health (NIH), Department of Health and Human Services (HHS), National Institute of Allergy and Infectious Diseases (NIAID)

ITEM:
Notice seeking applications to form a Leadership Group for an Infectious Diseases Clinical Research Consortium, hereafter referred to as the Leadership Group (LG), to support the planning and implementation of clinical research that addresses the scientific priorities of NIAID in evaluating vaccines, other preventive biologics, therapeutics, diagnostics, including prognostic and predictive markers, and devices for the treatment and prevention of infectious diseases.

ACTION:
Requested letters of intent are due 30 days prior to the application due date. Applications are due February 15, 2019. Approximately $29 million is available to support one award.

Pragmatic Research in Healthcare Settings to Improve Diabetes and Obesity Prevention and Care (R18 Clinical Trial Required)

FON:
PAR-18-925

AGENCY:
National Institutes of Health (NIH), Department of Health and Human Services (HHS), National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK)

ITEM:
Notice seeking applications that test innovative approaches to improve diabetes and obesity prevention and/or treatment in healthcare settings where individuals receive their medical care. Research applications should be designed to test practical and sustainable strategies to improve processes of care and health outcomes for individuals with or at risk of diabetes and/or obesity. The research should also focus on approaches with the potential to be broadly disseminated outside the specific setting where it is being tested.

ACTION:
Applications are due November 1, 2018; February 14, 2019; May 14, 2019; and November 1, 2019. Multiple awards are anticipated.

FON:
RFA-OD-19-011

AGENCY:
National Institutes of Health (NIH), Department of Health and Human Services (HHS)

ITEM:
Notice seeking applications that focus on innovative computational and/or data science analytic approaches and their incorporation into training for the future BSSR health research workforce.

ACTION:
Applications are due May 25, 2019. Approximately $2 million is available to support four to eight awards.
