Exploring the Mechanisms Underlying Modulation of Glymphatic-Lymphatic Systems by Complementary and Integrative Health Approaches (R01-R21 Clinical Trial Optional)
FON:
RFA-AT-21-001 (R01) RFA-AT-21-002 (R21)

AGENCY:
National Institutes of Health (NIH), Department of Health and Human Services (HHS), National Center for Complementary and Integrative Health (NCCIH); National Institute of Dental and Craniofacial Research (NIDCR)

ITEM:
Notice seeking research applications that explore the impact of and the mechanisms by which complementary and integrative health approaches regulate the activities of glymphatic/lymphatic systems, or investigate the effect of complementary and integrative health approaches on the interactions between glymphatic/lymphatic functions and physiological/pathological processes. Proposed mechanistic studies may be in relevant animal models and/or human research participants. This FOA will not support clinical trials aiming to assess efficacy or effectiveness of clinical outcomes.

ACTION:
Optional letters of intent are due 30 days prior to the application due date. Applications are due July 9, 2020. Multiple awards expected.

FY 2020 and FY 2021 Source Reduction Assistance Grant Program

FON:
EPA-HQ-OPPT-2020-002

AGENCY:
Environmental Protection Agency (EPA)

ITEM:
Notice announcing a grant competition to fund two-year Source Reduction Assistance (SRA) agreements that support research, investigation, study, demonstration, education and training using source reduction approaches (also known as “pollution prevention” and herein referred to as “P2”). P2 means reducing or eliminating pollutants from entering any waste stream or otherwise released into the environment prior to recycling, treatment, or disposal. EPA is particularly interested in receiving applications that offer hands on practical P2 tools, information and/or innovative P2 approaches to
measurably improve the public health and the surrounding environment, by reducing the use of hazardous substances, reducing toxic pollutants, supporting efficiencies in reducing resource use (e.g., water and energy), and reducing business expenditures and liability costs.
