**EDUCATION / ECONOMIC AND COMMUNITY DEVELOPMENT**

**MEETING:**
Notice of the President's National Infrastructure Advisory Council Meeting

**AGENCY:**
Department of Homeland Security (Homeland Security), Cybersecurity and Infrastructure Security Agency (CISA)

**ITEM:**
Notice announcing a meeting of the President's National Infrastructure Advisory Council. The purpose of the meeting is to provide the President, through the Secretary of Homeland Security, with advice on the security and resilience of the Nation's critical infrastructure sectors.

**ACTION:**
The meeting will be held Thursday, December 12, 2019 from 9:00 a.m.-1:00 p.m. ET at the Eisenhower Executive Office Building, 1650 Pennsylvania Ave. NW, Washington, DC. Individual registration to attend the meeting in person is required and must be received no later than 5:00 p.m. ET on December 12, 2019 to NIAC@hq.dhs.gov.

HEALTH

FUNDING OPPORTUNITY:
Intellectual and Developmental Disabilities Research Centers 2019 (P50 - Clinical Trial Optional)

FON:
RFA-HD-20-016

AGENCY:
National Institutes of Health (NIH), Department of Health and Human Services (HHS), National Institute of Child Health and Human Development (NICHD)

ITEM:
Notice seeking applications for research center grants designed to advance the diagnosis, prevention, treatment, and amelioration of intellectual and developmental disabilities (IDD). This FOA seeks applications from institutions that meet the qualifications for a multi-disciplinary program of IDD research that will include: 1) Cores that facilitate interdisciplinary and translational research in IDD and its dissemination, and that support IDD-related projects funded by other sources; and 2) at least one specific research project related to one of several focus themes identified as an area of research need in IDD.

ACTION:
Requested letters of intent are due 30 days prior to the application due date. Applications are due January 15, 2020. Approximately $11.7 million is available to support up to nine awards.

FUNDING OPPORTUNITY:
Rapid Antiretroviral Therapy (ART) Start in the Ryan White HIV-AIDS Program – Dissemination Assistance Provider

FON:
HRSA-20-076

AGENCY:
Health Resources and Services Administration (HRSA), Department of Health and Human Services (HHS), HIV/AIDS Bureau

ITEM:
Notice seeking applications to fund a single organization that will develop a compendium of promising rapid ART interventions. The recipient will systematically identify and document innovative practices
and procedures of rapid ART interventions and promote the dissemination of these models for replication among RWHAP and other providers serving people with HIV.

**ACTION:**
Requested letters of intent are due January 2, 2020. Applications are due March 3, 2020. Approximately $1 million is available to support one award.

**FUNDING OPPORTUNITY:**
Ryan White HIV-AIDS Program - Data Integration, Systems, and Quality Technical Assistance

**FON:**
HRSA-20-070

**AGENCY:**
Health Resources and Services Administration (HRSA), Department of Health and Human Services (HHS)

**ITEM:**
Notice seeking applications to provide onsite and virtual technical assistance to RWHAP recipients and subrecipients to increase data-related capacity and improve the ease, completeness, timeliness, and accuracy of program data. This technical assistance program will improve RWHAP recipients' and sub-recipients' capacity to meet data-related program requirements and enhance their ability to use data to increase program efficiency and effectiveness.

**ACTION:**
Applications are due January 22, 2020. Approximately $800,000 is available to support one award.

SCIENCE / TECHNOLOGY / ENGINEERING / MATH

FUNDING OPPORTUNITY:
Semiconductor Synthetic Biology for Information Storage and Retrieval

FON:
20-518

AGENCY:
National Science Foundation (NSF)

ITEM:
Notice seeking proposals for high-risk/high-return interdisciplinary research on novel concepts and enabling technologies that will address the fundamental scientific issues and technological challenges associated with the underpinnings of synthetic biology integrated with semiconductor technology. This research will foster interactions among various disciplines including biology, physics, chemistry, materials science, computer science and engineering that will enable in heretofore unanticipated breakthroughs.

ACTION:
Proposals are due March 16, 2020. Approximately $12 million is available to support 8 to 10 awards.
