**FUNDING OPPORTUNITY:**
USAID-Uganda Combatting Wildlife Crime Activity

FON:
72061719RFA00006

AGENCY:
United States Agency for International Development (USAID)

ITEM:
Notice seeking applications to reduce wildlife crime in Uganda through the following three interrelated outcomes: New and enhanced coordination mechanisms and interagency cooperation improve enforcement and data-sharing; Institutional strengthening, capacity building, and systems approaches enhance wildlife crime deterrence, detection, enforcement, and prosecution; and High quality data and analysis informs anti-wildlife crime approaches.

ACTION:
Applications are due October 21, 2019. Approximately $4 million is available to support one award over a five year period.

HEALTH

FUNDING OPPORTUNITY:
Bioinformatics Interdisciplinary Postdoctoral Fellowship in Diabetes, Endocrinology and Metabolic Diseases (F32)

FON:
PAR-19-379

AGENCY:
National Institutes of Health (NIH), Department of Health and Human Services (HHS), National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK)

ITEM:
Notice seeking applications to enable promising postdoctoral fellows to obtain interdisciplinary training from outstanding faculty sponsors in bioinformatics and scientific research relevant to the mission of NIDDK's Division of Diabetes, Endocrinology and Metabolic Diseases (DDEMD). This training will require mentorship in both bioinformatics and metabolic disease disciplines.

ACTION:
Applications are due annually on April 8, August 8, and December 8. Program expires September 8, 2022.

FUNDING OPPORTUNITY:
Cancer Intervention and Surveillance Modeling Network (CISNET) (U01 Clinical Trial Not Allowed)

FON:
RFA-CA-19-054

AGENCY:
National Institutes of Health (NIH), Department of Health and Human Services (HHS), National Cancer Institute (NCI)

ITEM:
Notice seeking applications for collaborative research projects using simulation and other modeling techniques for specific cancer types. The proposed research is expected to generate sophisticated, evidence-based decision tools that could inform international/national/regional/local decisions on the most efficient utilization of existing and emerging technologies and strategies for the control of cancer.

ACTION:
Optional letters of intent are due November 10, 2019. Applications are due December 10, 2019. Approximately $10 million is available for up to six awards.

FUNDING OPPORTUNITY:
Dementia Care: Home- and Community-Based Services (HCBS) (R01-R21 Clinical Trial Not Allowed)
FON:
RFA-AG-20-037; RFA-AG-20-038

AGENCY:
National Institutes of Health (NIH), Department of Health and Human Services (HHS), National Institute on Aging (NIA)

ITEM:
Notice seeking applications to examine the outcomes of care for persons with Alzheimer's disease and Alzheimer's disease-related dementias (AD/ADRD) by identifying home- and community-based services (HCBS) used, as well as barriers to accessing these types of care and unmet needs of persons with AD/ADRD concerning care and services.

ACTION:
Optional letters of intent are due January 3, 2020. Applications are due February 3, 2020. Approximately $3.53 million is available to support six R01 awards. Approximately $750,000 is available to support three R21 awards.

Initiative to Maximize Research Education in Genomics: Diversity Action Plan (R25)

FON:
PAR-19-380

AGENCY:
National Institutes of Health (NIH), Department of Health and Human Services (HHS), National Human Genome Research Institute (NHGRI)

ITEM:
Notice seeking applications to support creative educational activities with a primary focus on research experiences during either the summer or academic year. The research experiences must be based on the foundational sciences relevant to genomics: genomic sciences (e.g. technology development, data science); genomic medicine (e.g. epidemiology, pharmacogenomics, clinical implementation); and genomics and society (e.g. bioethics, social and behavioral sciences, law, the humanities). A secondary focus is on Courses for Skills Development.

ACTION:
Optional letters of intent are due 30 days before the application deadline. Applications are due January 25, 2020, January 25, 2021, and January 25, 2022.

Innovative Epidemiologic Approaches for Understanding Long-term Health Outcomes of HIV-exposed Uninfected (HEU) Populations (R61 R33 Clinical Trial Not Allowed)

FON:
RFA-HD-20-008

AGENCY:
National Institutes of Health (NIH), Department of Health and Human Services (HHS), National Institute of Child Health and Human Development (NICHD); National Institute of Mental Health (NIMH)

ITEM:
Notice seeking applications to generate information needed to develop interventions to reduce long-term effects of in utero/perinatal exposure to antiretroviral therapy and/or HIV on health outcomes. Specifically, NIH is seeking two-phased research applications to (1) demonstrate the capacity to enroll sufficient numbers of HIV-exposed uninfected infants, children, adolescents, and/or young adults in the United States and/or international settings with high HIV burden, and then, to (2) utilize the established cohort to conduct innovative epidemiological approaches to assess health in these populations.

ACTION:
Optional letters of intent are due 30 days before the application deadline. Applications are due December 2, 2019. Approximately $1.6 million is available for 3 to 5 awards.

FON:
PAR-19-383

AGENCY:
National Institutes of Health (NIH), Department of Health and Human Services (HHS), National Institute of General Medical Sciences (NIGMS)

ITEM:
Notice seeking applications for creative educational activities designed to equip a diverse cohort of participants with the technical, operational, and professional skills required for careers in the biomedical research workforce. Funded programs are expected to have robust evaluation, outreach, dissemination, and sustainability plans.

ACTION:
Applications are due October 31, 2019; October 15, 2020; and October 15, 2021.

FON:
RFA-HD-20-019

AGENCY:
National Institutes of Health (NIH), Department of Health and Human Services (HHS), National Institute of Child Health and Human Development (NICHD)

ITEM:
Notice seeking applications to encourage small businesses to collaborate with scientists and clinicians in the field of gynecologic health to develop, advance, and validate new devices and methods for non-invasive diagnosis and/or screening of endometriosis, adenomyosis, and/or uterine fibroids. Projects supported will aim to shorten the time to diagnosis, decrease the invasiveness of current techniques, and/or improve accessibility, safety, convenience, and costs of diagnosis and/or screening.

ACTION:
Optional letters of intent are due November 10, 2019. Applications are due December 10, 2019. Approximately $1 million is available to support up to eight awards. Eligibility is limited to small business concerns but colleges and universities may collaborate.

Patient Activation for Self-Management of Chronic Conditions (R01 R21 Clinical Trial Optional)
FON:
PAR-19-381, PAR-19-382

AGENCY:
National Institutes of Health (NIH), Department of Health and Human Services (HHS), National Institute of Nursing Research (NINR)

ITEM:
Notice seeking applications to promote clinical research that addresses the influence of patient activation on self-management. Research objectives may include examinations of clinical trial designs,
biologic and genetic variables, social determinants of health that serve as barriers to patient activation, psychosocial factors, strategies to enhance patient-provider communication, or other areas.

ACTION:
R01 applications are due June 5, 2020; February 5, 2021; June 5, 2021; February 5, 2022; June 5, 2022; and February 5, 2023. FON:
PAR-19-384

AGENCY:
National Institutes of Health (NIH), Department of Health and Human Services (HHS)

ITEM:
Notice seeking applications that seek to explain the underlying mechanisms, processes, and trajectories of social relationships and how these factors affect outcomes in human health, illness, recovery, and overall wellbeing. Types of projects submitted under this FOA include studies that prospectively assign human participants to conditions (i.e., experimentally manipulate independent variables) and that assess biomedical and/or behavioral outcomes in humans to understand fundamental aspects of phenomena related to social connectedness and isolatedness.

ITEM:
Notice seeking proposals for development projects and demonstration missions that are small,
affordable, rapid, and transformative. All efforts will focus on small spacecraft capabilities that are
relevant to NASA's missions in science and exploration, including those with crosscutting applications
to the needs of the broader small spacecraft community in industry, academia, and other government
agencies.

ACTION:
Mandatory Notices of Intent are due by October 4, 2019 and must be submitted via NSPIRES.
Proposals are due November 6, 2019. Five awards are anticipated.
