**FUNDING OPPORTUNITY:**
Addressing Education in Northeast Nigeria

**FON:**
72062018APS00002

**AGENCY:**
United States Agency for International Development (USAID), Nigeria USAID-Abuja

**ITEM:**
Notice seeking applications supporting efforts to address education in Northeast Nigeria targeting internally displaced people and host communities in Adamawa, Borno, Gombe and Yobe states, as and when conditions permit. Funds support acute emergency education needs while laying the foundation to rebuild and transform the education system in Northeast Nigeria, redressing long-standing education grievances related to the insurgency and building trust in Nigerian education institutions.

**ACTION:**
Applications are due by June 29, 2018. Approximately $25 million is available to support multiple awards.

HEALTH

FUNDING OPPORTUNITY:
Developmental Pharmacodynamics and Models of Drug Effects in Pediatrics (R01/R03 Clinical Trial Optional)

FON:
PA-18-688; PA-18-687

AGENCY:
National Institutes of Health (NIH), Department of Health and Human Services (HHS)

ITEM:
Notice seeking applications supporting large and small grants for multidisciplinary, investigator-initiated basic translational and clinical research in developmental pharmacodynamics. Funds support studies to increase and establish data on developmental pharmacodynamics in the pediatric age groups and allows the determination of pharmacokinetic-pharmacodynamic relationship of drugs used in this population.

ACTION:
Optional letters of intent are due 30 days before the chosen due date.

Large R01 applications are due annually on February 5, June 5, and October 5 until May 8, 2021. Multiple awards are anticipated.

Small R03 applications are due annually on February 16, June 16, and October 16 until May 8, 2021. Multiple awards of up to $50,000 are anticipated.

FUNDING OPPORTUNITY:
Innovative Therapies and Tools for Screenable Disorders (R01/R03/R21) Clinical Trial Optional

FON:
PAR-18-689; PAR-18-690; PAR-18-691

AGENCY:
National Institutes of Health (NIH), Department of Health and Human Services (HHS)

ITEM:
Notice seeking applications supporting small, large, and exploratory grants for the development of therapeutic interventions for potentially fatal or disabling conditions that have been identified through newborn screening, as well as "high priority" genetic conditions where screening may be possible in the near future. A "high priority" condition is one where screening is not currently recommended but would significantly benefit from early identification and treatment.

ACTION:
Optional letters of intent are due 30 days before the chosen due date.

Large R01 awards are due annually on February 5, June 5, and October 5 until May 8, 2021. Multiple awards are anticipated.
Small R03 awards are due annually on February 16, June 16, and October 16 until May 8, 2021. Multiple awards of up to $50,000 per award are anticipated.

Exploratory R23 awards are due annually on February 16, June 16, and October 16 until May 8, 2021. Multiple awards of up to $275,000 per award are anticipated.

FUNDING OPPORTUNITY:
Research Answers to National Cancer Institute's (NCI) Provocative Questions (R21 & R01 Clinical Trial Optional)

FON:
RFA-CA-18-020; RFA-CA-18-019

AGENCY:
National Institutes of Health (NIH), Department of Health and Human Services (HHS), National Cancer Institute (NCI)

ITEM:
Notice seeking applications to support research projects designed to solve specific problems and paradoxes in cancer research identified by the National Cancer Institute Provocative Questions (PQ) initiative. The PQ Initiative includes a set of 12 PQs in which applicants are encouraged to use strategies that incorporate ideas and approaches from multiple disciplines to address key areas of cancer research that are deemed important but have not received sufficient attention.

ACTION:
Optional letters of intent are due 30 days prior to the application due date. Applications are due June 29, 2018. Approximately $15 million is available for up to 20 awards to support projects lasting up to two years (R21) or five years (R01).

MEETING:
Study Design Considerations for Devices Including Digital Health Technologies for Sleep Disordered Breathing in Adults; Public Workshop; Request for Comments

AGENCY:
Food and Drug Administration (FDA), Department of Health and Human Services (HHS)
ITEM: Notice announcing a public workshop entitled “Study Design Considerations for Devices including Digital Health Technologies for Sleep Disordered Breathing in Adults” to discuss the appropriate design of clinical studies to evaluate devices including digital health technologies intended for the diagnosis, monitoring, or treatment of sleep disordered breathing (SDB) in adults. Study design considerations to be discussed include definitions for SDB conditions, inclusion/exclusion criteria for studies of these conditions, use of SDB assessment technologies, controls, and study endpoints.

ACTION: The public workshop will be held on April 16, 2018, from 8 am to 5 pm ET at FDA’s White Oak Campus, 10903 New Hampshire Ave., Bldg. 31 Conference Center, the Great Room (Rm. 1503), Silver Spring, MD

SCIENCE / TECHNOLOGY / ENGINEERING / MATH

FUNDING OPPORTUNITY: Coupling, Energetics, and Dynamics of Atmospheric Regions

FON: 18-544

AGENCY: Directorate for Geosciences (GEO), National Science Foundation (NSF), Division of Atmospheric and Geospace Sciences

ITEM: Notice seeking applications supporting a broad-based research program with the goal of understanding the behavior of atmospheric regions from the middle atmosphere upward through the thermosphere and ionosphere into the exosphere in terms of coupling, energetics, chemistry, and dynamics on regional and global scales. These processes are related to the sources of perturbations that propagate upward from the lower atmosphere as well as to solar radiation and particle inputs from above. Funds combine observations from ground based and space based platforms, theory and modeling.

ACTION: Applications are accepted at any time. Approximately $1 million is available to support five to eight awards. Only two proposals per investigator, either as a PI, co-PI, or in a subaward, are allowed per calendar year in the CEDAR Program.

FUNDING OPPORTUNITY:
FY 2018 – FY 2019 Pollution Prevention Grant Program

FON:
EPA-HQ-OPPT-2018-001

AGENCY:
Environmental Protection Agency (EPA)

ITEM:
Notice seeking applications supporting two-year Pollution Prevention assistance agreements that provide technical assistance and/or training to businesses/facilities to help them adopt source reduction approaches focused on reducing or eliminating pollutants from entering any waste stream or otherwise released into the environment prior to recycling, treatment, or disposal. Applications must address one or more of the following topic areas: Business-Based Pollution Prevention Solutions Supporting Toxic Substances Control Act Priorities and Chemical Safety; Food and Beverage Manufacturing and Processing; Hazardous Materials Source Reduction Approaches in States or Communities. Additional priorities may be added depending on applicant region. A 50 percent match is required.

ACTION:
Applications are due by April 26, 2018. Approximately $4.69 million per year is available to support multiple awards.

FUNDING OPPORTUNITY:
Geospace Environment Modeling

FON:
18-543

AGENCY:
Directorate for Geosciences (GEO), National Science Foundation (NSF) , Division of Atmospheric and Geospace Sciences

ITEM:
Notice seeking proposals supporting a broad-based research program investigating the physics of the Earth's magnetosphere and the coupling of the magnetosphere to the atmosphere and to the solar wind. Funds support efforts to make accurate predictions of the geospace environment by developing physical understanding of the large-scale organization and dynamics from observations, theory, and increasingly realistic models.

ACTION:
Proposals are accepted at any time. Approximately $1.5 million is available to support 6 to 10 awards.
Limited Submission:
Only two proposals per investigator, either as a PI, co-PI, or in a subaward, are allowed per calendar year.

AGENCY:
Directorate for Engineering (ENG), Directorate for Geosciences (GEO), Directorate for Social, Behavioral & Economic Sciences (SBE), National Institute of Food and Agriculture (NIFA), National Science Foundation (NSF), United States Department of Agriculture (USDA), Office of International Science and Engineering; Office of Integrative Activities

ITEM:
Notice seeking applications supporting research that conceptualizes food, energy, and water (FEW) systems broadly and inclusively, incorporating social and behavioral processes (such as decision making and governance), physical processes (such as built infrastructure and new technologies for more efficient resource utilization), natural processes (such as biogeochemical and hydrologic cycles), biological processes (such as agroecosystem structure and productivity), and cyber-components (such as sensing, networking, computation and visualization for decision-making and assessment). Tracks include: Social-Physical Modelling of FEW Systems; Research to Enable Innovative System Solutions; and INFEWS Research Coordination Networks.

ACTION:
Applications are due by September 26, 2018. Approximately $34 million is available to support 15-30 awards between all three tracks.

FUNDING OPPORTUNITY:
Key Verification Assets Fund or V Fund Program

FON:
BAA-2018-DOS-AVC-VTRDN

AGENCY:
Department of State (State)
ITEM:
Notice seeking applications to find innovative technological approaches to current and future arms control, and nonproliferation policy implementation challenges through exchanges between the science and technology communities.

ACTION:
BAA questions are accepted through March 30, 2018. White papers are due April 13, 2018. Approximately $1.7 million is available for multiple awards ($150,000 cap) to support projects lasting up to one year.

FUNDING OPPORTUNITY:
Planning Grants for Engineering Research Centers (ERC)

FON:
18-549

AGENCY:
Directorate for Engineering (ENG), National Science Foundation (NSF)

ITEM:
Notice seeking proposals to develop planning pilot initiative activities that build convergent team formation and capacity-building within the engineering community in response to the National Academies of Sciences, Engineering, and Medicine study recommendations.

ACTION:
Full proposals are due June 6, 2018. Approximately $400,000 is available for up to 40 awards ($100k cap per award) to support projects lasting up to one year. PI must serve as an engineering faculty member whose main appointment is in an engineering school/college.

FUNDING OPPORTUNITY:
Scientific Discovery through Advanced Computing: Runaway Electron Avoidance and Mitigation in Tokamak Plasmas

FON:
DE-FOA-0001844

AGENCY:
Department of Energy (Energy), Office of Science
ITEM:
Notice seeking applications to apply knowledge of today's multi-petascale Department of Energy high-performance computing systems to accelerate scientific discovery in the area of magnetic fusion energy science and address high-priority issues identified in recent community studies.

ACTION:
Required pre-applications are due April 4, 2018. Applications are due May 14, 2018. Approximately $2 million, per award, is available for multiple awards to support continuous (open timetable) projects based on DOE appropriations. Collaborative applications submitted from different institutions must indicate they are part of a collaborative project and each partner institution must submit an application through its own sponsored research office.

FUNDING OPPORTUNITY:
Solid Oxide Fuel Cells Core Technology Research

FON:
DE-FOA-0001853

AGENCY:
Federal Laboratories (Federal Laboratories), Department of Energy (Energy), National Energy Technology Laboratory

ITEM:
Notice seeking applications supporting efforts to enable the efficient generation of low-cost electricity for 2nd Generation natural gas-fueled Solid Oxide Fuel Cells distributed generation systems and modular, coal-fueled systems; as well as Transformational coal or natural gas-fueled utility-scale systems with carbon capture and sequestration. Funds support both Solid Oxide Fuel Cells (SOFC) Core Technology Research; and Core Technology Research and Development in Support of Near-Term SOFC Power Systems Prototype Tests. A 20 percent cost share is required.

ACTION:
Applications are due by April 30, 2018 at 8:00 ET. Approximately $9.5 million is available to support ten awards between the two focus areas.
